What is META?

Why become a Sponsor?

META is the major event in the field of Nanophotonics and Metamaterials (1000 participants from 50 countries attended the last edition in Malaga).

We anticipate that META'17 in Korea will be an exceptional venue to communicate your products, capabilities and services to potential new customers and to solidify relationships with existing customers.

As a Sponsor & Exhibitor at META'17 you will be able to:

- Build and reinforce name/brand recognition of your organization and products among a big number of research engineers, scientists and professionals in related industries.
- Promote your latest advances and discoveries.
- Give your company exposure to International research communities.

The International Conference on Metamaterials, Photonic Crystals and Plasmonics (META) features every year the latest developments in the area of Nanophotonic, Metamaterials and related topics.

The conference program consists of plenary lectures, keynote talks, special sessions of invited talks, and high-profile general sessions that typically cover a broad range of exciting physics, such as metamaterials, metatronics and graphene metamaterials, plasmonics and nanophotonics, plasmon-enhanced photovoltaics, photonic crystals and cavities, quantum photonics, nanobiophotonics, near-field optics, acoustic metamaterials, optomechanics, nanofabrication technologies, etc.

The origin of the conference dates back to 2002 as a NATO Advanced Research Workshop at a time when many of the current topical research areas began to emerge from the field of complex electromagnetic materials.

Exhibits Opportunities

META 2017 provides an integrated exhibition area close to technical sessions and coffee to ensure frequent attendance. This is an excellent chance to present your company and its recent results, as well as to get in touch with other young and senior scientists from industry and academia. The exhibition will open on Tuesday 25 July and will close on Friday 28 July after lunch.
