THE META AUDIENCE

The people shaping the field

META brings together scientific leaders, R&D teams and emerging researchers across the full metamaterials and photonics ecosystem.

Academic leaders

Principal investigators, professors and research group leaders.

Industry & R&D

Engineers, R&D managers and technology/product specialists.

Next generation

Postdocs, doctoral researchers and emerging scientific talent.

WHY PARTNER

Four reasons to be at META

Visibility

Continuous exposure across the website, program and conference floor.

Engagement

Direct conversations with a specialized scientific and technical audience.

Thought leadership

Industrial workshop time inside the official conference program.

Talent & partnerships

Access to collaborators, research groups and future recruits.

SCIENTIFIC SCOPE

Metamaterials & metasurfaces • flat optics • photonic crystals • plasmonics • quantum photonics • light-matter interactions • structured light • mmWave & THz • acoustic, mechanical & thermal metamaterials • inverse design & AI-driven photonics.

VENUE

Niagara Falls Convention Centre - sessions, catering and exhibition are on the same floor, placing exhibitors directly on the main delegate circulation.
